MANUFACTURING

- Measure the clear rear-glass area before ordering; 18 x 6 inches is the starting size.
- Use exterior-grade die-cut white/gold vinyl, printed transparent vinyl with white underbase, or legally appropriate perforated window film.
- Request UV-resistant automotive material and laminate.
- Do not retype, stretch, crop, recolor, or rearrange the design.
- Do not cover defroster connections, cameras, sensors, visibility zones, or legally restricted glass.
- Check local laws and approve a digital proof and test-fit before production.

FINAL APPROVAL: Approve one physical sample before authorizing a larger order. Do not proceed if any word, color, measurement, placement, or material differs from this package.
